

4 Reasons
why Carrier Billing
is Key for Merchants'
Internationalization

DIGITALVIRGO

1 Highly Adoption of Mobile Payments

Users demand a frictionless purchasing journey. Carrier Billing **reduces the payment process x5** compared to credit cards

2 ***Carrier Billing Global Reach***

More **SIM cards**
than people in the world.

Best payment method
in under-banked markets

Real opportunity
*for digital merchant
in mature economies*

3 *Easy, Secure and Scalable Expansion*

*A single connection to expand your business internationally:
no additional cost in technological,
physical or legal infrastructure.*

4 *Local Currency Settlement*

Total flow of cross-border payments globally will reach \$156 trillion by 2022.*

Eliminating the complexity of local taxes, foreign exchange or remittance to quickly settle payments for merchants worldwide.
